SECURE THEIR FUTURE WITH THE PROPER CAR SEAT

TRACY, California – During Child Passenger Safety Week, the Tracy Police Department encourages all parents and caregivers to make sure their children are riding safely by using the correct car seats, booster seats, and properly fitted seat belts. This annual campaign takes place from September 21-27 and aims to raise awareness about the importance of car seat safety and proper installation.

There is no room for guesswork when it comes to protecting our youngest passengers. Child Passenger Safety Week is an important reminder of how critical it is to choose the right car seat and ensure it is properly installed.

According to the National Highway Traffic Safety Administration (NHTSA), nearly half of car seats (46%) are misused. Properly installed car seats have been shown to reduce fatal injury crashes by 71% for infants under a year old and by 54% for toddlers ages 1 through 4.

Current California law requires all children under 2 years old to ride in a rear-facing car seat, unless the child is 40 or more pounds or is 40 or more inches tall. Once a child reaches these milestones, all children under the age of 8 years old are still required to be secured in a car seat or booster seat in the back seat. Children 8 and older, or who are at least 4 feet 9 inches tall, may be secured by a booster seat, but at a minimum must be secured by a safety belt.

As of January 1, 2027, AB 435 requires children ages 8 to 16 years old to pass all steps of the "Five-Step Test" before they can safely use a seat belt without a booster seat. Parents and caregivers are encouraged to keep children in the proper rear- or forward-facing seat as long as possible and use the Five-Step Test as a guide, before it becomes law in 2027, to determine if their child is big enough to safely use a seat belt without a booster seat.
